# Recycling Cell Phones

## ~Turn used cell phones into valuable resources~

モバイル・リサイクル・ネットワーク

In order to further promote the reduction of garbage and recycling, cell phones are not collected or disposed by the Town.

Precious metals such as gold and silver as well as rare metals such as nickel are used in cell phones, which can be re-used as valuable industrial resources.

Used cell phones must not be disposed as garbage. Drop them off at the nearest cell phone retailer or home electric appliance store. Cell phones are collected free of charge regardless of the brand or manufacturer.
